<p>9/7 1pm</p>	<p>Inside Higher Ed</p>	<p><b>New Directions in Online Education</b></p> <p>Online education is ubiquitous in American higher education. Some colleges deliver more courses online than others, but all colleges now offer at least some online courses with traditional-age students and residential campuses – also have embraced online learning.</p> <p>This webcast will explore some of the ways colleges are delivering instruction to students and how this is changing traditional face-to-face pedagogy. Increasingly, developments in online education influence traditional face-to-face instruction, and these changes are becoming increasingly important.</p> <p>Join <i>Inside Higher Ed</i> editors Scott Jaschik and Doug Lederman for a lively discussion on the future of higher education.</p> <p><a href="https://event.on24.com/eventRegistration/EventLobbyServlet?target=reg20.jsp&amp;partnerref=ESE&amp;eventid=1483575&amp;sessionid=1483575">https://event.on24.com/eventRegistration/EventLobbyServlet?target=reg20.jsp&amp;partnerref=ESE&amp;eventid=1483575&amp;sessionid=1483575</a></p>

Until now, remote assessment for algebra has given teachers little insight into their students' thought processes. New tools empower teachers to see through remote students' eyes. This technology promises to arm students with advanced problem-solving skills in less time. Analytics from automated problem grading give teachers much richer feedback to describe and demonstrate this exciting new development in distance learning for algebra.</p> <p><a href="#">Register Here</a></p>
